MOHAMMED ALOUFI

• Kotlin Developer •

ABOUT ME

I'm a Kotlin developer who loves to code and enjoys challenging ideas, I like to analyze things and think deeply about them. I get curious about how things work. and I really like exploring new problems and ideas.

EDUCATION

• Tuwaiq academy, OCT 2021 - FEB 2022
KOTLIN. camp Apprenticeship

• Taif University, SEP 2016 - MAY 2021
Information technology BA, GPA of 2.95 out of 4. Excelled in programming courses.

EXPERIENCE

2014- Present   **Artiest,** Self employed
When I was 15 years old I got interested in art, so I taught me self how to draw, When people noticed how good I was I started getting orders for custom pieces.

June 21 -Oct 21   **Mobile devices maintenance**
When I graduated from college I had an chance to work in mobile devices maintenance, Started knowing nothing about it, In matter of a week I had the knowledge to fix any kind of device.

PROJECTS

Dec 21 -Present   **Memoria , Kotlin**
In this project I set a goal that I must learn great yet challenging things such: Dependence injection, clean architecture and coroutine, and I'm loving it.

07Nov - 14Nov   **ToDo list, Kotlin**
To me this was a great project, it filled up the gaps that I was missing in my first project, in this project I used MVC, Room Database and LiveData.

SEP 20 - MAY 21   **Covid-19 dental clinic system, IOS**
This was my first real project I started it knowing nothing about mobile development or IOS, But I really enjoyed the whole journey and learned so much from it and got an A+ in it.

SOFT SKILLS

- Organization and Time management
- Analytical thinking
- Self-Learning
- Problem solving
- Good listener and quick learner
- Good researcher

PROGRAMMING SKILLS

- Kotlin
- Good with Databases
- Fundamentals of Java
- Fundamentals of C++
- Fundamentals of Swift
- GitHub
- Solving algorithmic problems
